How to Convert Classic Quizzes to New Quizzes

In this tutorial, you will learn how to convert Classic Quizzes to New Quizzes.

1. From anywhere in the course, click the “Quizzes” link in the left navigation area.
2. If you are unsure of which quizzes are Classic or New, click the settings button (three vertical dots) to the right of the publish indicator. If the word “Migrate” is in the list, then the quiz is Classic. If the word “Migrate” is not in the list, then the quiz is New.
 - o Another way to identify Classic/New Quizzes: in the list of quizzes, New Quizzes will not show how many questions are in the quiz.
3. Find quizzes with the word “Migrate” in the list and click it.
4. When the quiz is finished migrating to New Quizzes, it will appear at the bottom of the list of quizzes.
5. Both the Classic Quiz and the New Quiz will appear in the list.
6. Once you have reviewed the converted quiz for accuracy, it is recommended to delete the Classic Quiz.
7. ***Always review migrated assessments before assigning them to your students.***
